(TSX: AAV)

CALGARY, AB, April 7, 2022 /CNW/ - Advantage Energy Ltd. ("Advantage" or the "Corporation") announced today that due to the continued strength in commodity prices and market conditions, the Corporation is proceeding with and the Toronto Stock Exchange (the "**TSX**") has approved the Corporation commencing a normal course issuer bid (the "**Bid**").

Pursuant to the Bid, Advantage will purchase for cancellation, from time to time, as it considers advisable, up to a maximum of 18,704,019 common shares of the Corporation. The Bid will commence on April 13, 2022 and will terminate on April 12, 2023 or such earlier time as the Bid is completed or terminated at the option of Advantage.

The maximum number of common shares to be purchased pursuant to the Bid represents 10% of the public float, as of April 1, 2022. Purchases pursuant to the Bid will be made on the open market through the facilities of the TSX and/or alternative trading systems. The number of common shares that can be purchased pursuant to the Bid is subject to a daily maximum of 263,879 common shares (which is equal to 25% of the average daily trading volume of 1,055,518 from October 1, 2021 to March 31, 2022). The price that Advantage will pay for any common shares under the Bid will be the prevailing market price on the TSX at the time of such purchase. Common shares acquired under the Bid will be cancelled.

Cormark Securities Inc. ("**Cormark**") has agreed to act on the Corporation's behalf to make purchases of common shares pursuant to the Bid.

Advantage believes that the common shares have been trading in a price range which does not adequately reflect their value in relation to the Corporation's current operations and its growth prospects, and that, at such times, the purchase of common shares for cancellation will increase the proportionate interest of, and be advantageous to, all shareholders.

As of the close of business on April 1, 2022, the Corporation had 190,828,976 common shares issued and outstanding and a public float of 187,040,191.

Further, the Corporation has entered into an automatic share purchase plan with Cormark in order to facilitate repurchases of its common shares under the Bid at times when the Corporation would ordinarily not be permitted to purchase its securities due to self-imposed blackout periods. Under the automatic share purchase plan, Cormark may repurchase common shares based upon the parameters prescribed by the TSX and applicable securities laws and the terms of the plan and the parties' written agreement. Outside of these blackout periods, common shares may be purchased under the Bid in accordance with management's discretion. The automatic share purchase plan has been approved by the TSX.

Notwithstanding that the Corporation is able to proceed with the Bid at this time (due to the continued strength in commodity prices and market conditions), the Corporation is asking shareholders to consider and approve a reduction to the stated capital of the common shares at its upcoming meeting of shareholders. If such approval of shareholders is obtained, it will provide the Corporation with the flexibility to purchase additional common shares in the future pursuant to additional normal course issuer bids, a substantial issuer bid or other similar transactions, or if market conditions change substantially.

This news release does not constitute an offer to sell securities, nor is it a solicitation of an offer to buy securities, in any jurisdiction.
