/NOT FOR DISTRIBUTION TO US NEWSWIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES/

(TSX: AAV)

CALGARY, AB, May 9, 2024 /CNW/ - Advantage Energy Ltd. ("Advantage" or the "Corporation") announced today that the Corporation is proceeding with, and the Toronto Stock Exchange (the "TSX") has approved, the Corporation renewing its normal course issuer bid (the "Bid").

Pursuant to the Bid, Advantage will purchase for cancellation, from time to time, as it considers advisable, up to a maximum of 13,835,841 common shares of the Corporation. The Bid will commence on May 14, 2024 and will terminate on May 13, 2025 or such earlier time as the Bid is completed or terminated at the option of Advantage.

The maximum number of common shares to be purchased pursuant to the Bid represents 10% of the public float, as of April 30, 2024. Purchases pursuant to the Bid will be made on the open market through the facilities of the TSX and/or Canadian alternative trading systems. The number of common shares that can be purchased pursuant to the Bid is subject to a daily maximum of 85,557 common shares (which is equal to 25% of the average daily trading volume of 342,230 common shares from November 1, 2023 to April 30, 2024), subject to certain exemptions pursuant to the rules of the TSX. The price that Advantage will pay for any common shares under the Bid will be the prevailing market price on the TSX at the time of such purchase. Common shares acquired under the Bid will be cancelled.

Peters & Co. Limited ("**Peters & Co.**") has agreed to act on the Corporation's behalf to make purchases of common shares pursuant to the Bid.

Advantage believes that the common shares have been trading in a price range which does not adequately reflect their value in relation to the Corporation's current operations and its growth prospects, and that, at such times, the purchase of common shares for cancellation will increase the proportionate interest of, and be advantageous to, all shareholders.

As of the close of business on April 30, 2024, the Corporation had 161,062,093 common shares issued and outstanding and a public float of 138,358,410.

Further, the Corporation has entered into an automatic share purchase plan with Peters & Co. in order to facilitate repurchases of its common shares under the Bid at times when the Corporation would ordinarily not be permitted to purchase its securities due to self-imposed blackout periods. Under the automatic share purchase plan, Peters & Co. may repurchase common shares based upon the parameters prescribed by the TSX and applicable securities laws and the terms of the plan and the parties' written agreement. Outside of these blackout periods, common shares may be purchased under the Bid in accordance with management's discretion. The automatic share purchase plan has been approved by the TSX.

Under Advantage's normal course issuer bid which expired on April 12, 2024 (the "**Expiring NCIB**"), the Corporation received approval from the TSX to purchase for cancellation up to a maximum of 16,201,997 common shares, representing approximately 10% of the 162,019,975 common shares comprising the public float as of April 1, 2023. As of April 12, 2024, the Corporation had repurchased and cancelled 10,113,081 common shares under the Expiring NCIB, at a weighted average purchase price of approximately \$9.04 per common share through market purchases on the TSX and Canadian alternative trading systems.

This news release does not constitute an offer to sell securities, nor is it a solicitation of an offer to buy securities, in any jurisdiction.
